

## Travel Green. Live Green.

*It's time to toot your own  
horn and make a Pollution Resolution!*

I, \_\_\_\_\_ (name of employee) am making a New Year's resolution to reduce air pollution by trying a commute alternative during the month of January. I will try to carpool, vanpool, ride the bus, bike, walk or work from home at least once in January (please circle preferred alternative).

In addition to using a commute alternative, I will also try to *Reduce Air Pollution* by making at least one clean air choice around the home, such as burning cleanly if I heat with wood, weatherizing my home, programming my thermostat and/or using eco-friendly cleaning products (please circle preferred clean air choice).
